# HOW YOU CAN CHANGE LIVES FOR GOOD!

**In both Zambia and Mozambique, 49% and 52%, respectively—still lacks access to safe water in rural areas, and more lacks even basic sanitation facilities**

Safer Water, Sanitation and Hygiene Education (WASH) directly impacts health, well-being and quality of life. It improves health, education and opportunity which means equitable futures for all. WASH interventions dramatically reduce waterborne diseases and enhance educational outcomes (especially for girls). Accessible, reliable water and sanitation supports economic development by reducing costs related to illness, increases productivity & earnings

For over 20 years, working hand-in-hand with local partners, we strive to reach the most marginalised populations in rural villages, schools, and health centres, creating positive impacts on their health and empowering them with opportunities. As a small yet dynamic team, we pride ourselves on our personal touch and can-do approach.

**With YOUR HELP, we are able to reach more groups and have a greater impact, changing lives for good.**

## VILLAGE WATER IMPACT

OUR SOLUTIONS IMPACT ALL ELEMENTS OF LIFE AND HELPING TO MEET THE SUSTAINABLE DEVELOPMENT GOALS

**1,858,345**  
people reached  
with safe water  
and sanitation

**106,858** pupils  
with improved  
WASH services

**2hrs 25mins** saved  
per household per  
day. **96%** used  
time saved on  
income  
generation.

Diarrhoea  
dropped by  
**96%**

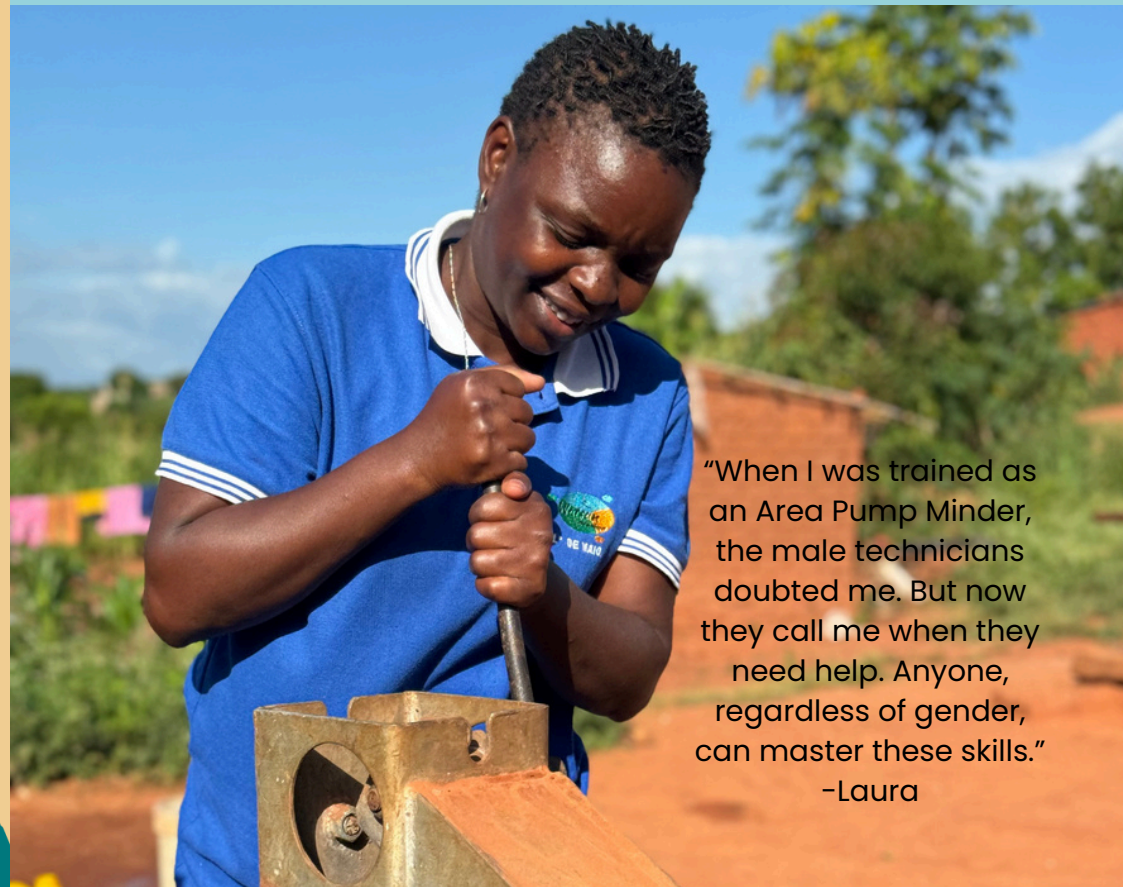

Girls school  
absenteeism  
dropped by  
**82%**

## HOW WE DO IT

MASS HYGIENE & SANITATION PROMOTION  
ENTERPRISE DEVELOPMENT  
WATER SYSTEMS IN VILLAGES & SCHOOLS  
SOLAR IRRIGATION

MENSTRUAL HEALTH MANAGEMENT  
SCHOOL LATRINE BLOCKS  
DISTRICT STRENGTHENING  
RURAL HEALTH MONITORING

“When I was trained as an Area Pump Minder, the male technicians doubted me. But now they call me when they need help. Anyone, regardless of gender, can master these skills.”

—Laura
